هام وعاجل

صورة مع التحية لسعادة رئيس الغرفة التجارية والصناعية

سعادة أمين عام الغرفة التجارية والصناعية

السلام عليكم ورحمة الله وبركاته،

إشارة الى القمة السعودية الأمريكية للبنية التحتية والتي عقدت بتاريخ ١٦ مارس ٢٠٢١م، والذي تم خلالها تسليط الضوء على مشاريع البنية التحتية السعودية في قطاعات الاتصالات وتقنية المعلومات، والسياحة والسفر، والمواصلات والخدمات اللوجستية، وإدارة النفايات والطاقة وذلك بمشاركة أكثر من ٢٠٠ شركة أمريكية.

عليه يسرني إحاطتكم بأن العمل جاري لعقد لقاءات ثنائية افتراضية بين المهتمين من أصحاب الأعمال السعوديين بنظرائهم الأمريكيين، ويمكن للراغبين من مشتركي غرفتكم الموقرة بالمشاركة في أعمال اللقاءات الثنائية التسجيل من خلال ارسال بيانات المشارك والشركة والقطاع باللغة الإنجليزية على البريد الإلكتروني [aalmuaibid@csc.org.sa](mailto:aalmuaibid@csc.org.sa) مع تحديد الشركة الأمريكية المراد لقاءها بحسب القائمة المرفقة.

أمل من سعادتكم التكرم بالاطلاع واتخاذ ما ترونه مناسباً. ولزيد من المعلومات يمكن للمهتمين التواصل مع المدير التنفيذي بإدارة العلاقات الدولية الأستاذ/ عبد الرحمن بن حمد المعبيد على الجوال رقم: (٠٥٥٦٦٦٩٤٧٢).

وتقبلوا أطيب تحياتي وتقديري،

الأمين العام

د. خالد بن عثمان اليحيى

**Company Description**

PhDsoft Technology is the market leader in digital transformation for asset structural integrity, digitizing the inspection, maintenance and risk evaluation process combining digital twin & IoT and industry 4.0 technologies. PhDsoft provides a comprehensive, agnostic and scalable Predictive Digital Twin that ingest data from human inspections, sensors and robot to integrate real current condition of an asset to be visualized on the 3D model (Digital Twin), evaluate risks and prescribe repairs. C4D® focuses on structures, piping, static equipment, onshore and offshore providing crystal clear awareness of the aging process and associated risks over time. C4D® is a proven solution used by major energy companies (Shell, Modec, Petrobras), Ports (Port of Houston), other examples of assets: Infrastructure such as bridges, highways, and railroads. Structure in ports such as cranes, maritime such as vessels, renewable energy; wind turbines, LNG, among other assets).

OSIsoft, LLC is a manufacturer of application software for real-time data management, called the PI System. distributor of electric and electronic products

We provide cybersecurity, ransomware protection, cloud, managed services, disaster recovery, data center services, call center, solar power, LED lighting and telecommunications services, including internet, satellite, voice and TV through over 50 telecommunications carriers as well as other related IT services.

Provider of Artificial Intelligence technology

Sanborn is a 21st century industry leader in geospatial solutions and technology, offering superior services, program management, and customer support. For our clients we provide a national presence, extensive resources, quick responses, and exceptional value. For 150 years, we have been a leader in the rapidly growing geospatial industry, with successful projects delivered worldwide.

Founded in 1995, WSC is a privately held global simulation and services company headquartered in the US. WSC's vision is to provide innovative, state-of-the-art, simulation technology products and services that add value in the design, commissioning, and safe and reliable operation of customer power generating or process plant assets. WSC is committed to the simulation marketplace and has invested several million dollars to develop engineering grade technology for simulators. WSC offers a corporate commitment to excellence from a stable, high technology engineering firm. WSC's mission is to meet or exceed customer requirements and expectations by: Providing innovative, state-of-the-art high quality training simulators and simulation products to meet customer's operation, training and safety needs. Maintaining and sustaining the highest quality in our simulation products to support the use of simulation as an integral part of the engineering process in new plant design or plant upgrades. Promoting continuous improvement in our products and services while complying with all applicable regulations and standards

Specialized advanced technology firm.

checking the health of the surveillance system. Ai-RGUS is a complete solution that relieves you from the burden of ensuring that all the devices of your security camera system are functioning correctly. Ai-RGUS verifies that each aspect of your system is working as intended so you can be sure you will have the images you need when you need them the most. It will provide daily reports and send automatic alerts when a view is compromised due to Blur, Tilt, Tamper, Obstruction, Glare, Low light, and Feed down. In addition to the camera view notification and reports, Ai-RGUS will let you know about any failures of the peripheral devices that are an integral part of your surveillance system, such as the recorder, DVR's or NVR's and the VMS. You can even get notified if you don't have the amount of days of recordings that you need. Ai-RGUS gives peace of mind that the cameras are regularly monitored and will free personnel for other important tasks. Ai-RGUS success story: Duke University uses Ai-RGUS since 2017 for its 2,000+ cameras. Duke Office of Information Technology shared with us: " We spend on average 5 minutes/day inspecting our 2,000+ cameras thanks to Ai-RGUS".

consumers to make data-driven energy-related decisions. Powered by our unique patented technology, Bidgely's UtilityAI™ Platform transforms multiple dimensions of customer data into deeply accurate and actionable consumer energy insights. From a Distributed Energy Resources (DER) and Grid Edge perspective, whether it is smart thermostats to EV chargers, solar PVs to TOU rate designs and tariffs; UtilityAI™ energy analytics provides deep visibility into generation, consumption for better peak load shaping and grid planning, and delivers targeted recommendations for new value-added products and services. With roots in Silicon Valley, Bidgely has over 17 energy patents, \$50M+ in funding, retains 30+ data scientists, and brings a passion for AI to utilities serving residential and commercial customers around the world.

professional services firm that utilizes various cutting-edge technologies, best practices, and research & development methodologies in order to solve organizations' most challenging operational, strategic, and technological constraints on the path to organizational excellence.
